

## 2 Composition/Information of Ingredients

Contains no materials, which are in accordance with the EEC criteria as dangerously classified.

## 3 Hazards Identification

Target Organs: N/A

Accute Effects: N/A

Inhalation: Slight irration of respiratory tract.

Eye: Dust may cause irration by mechanical abrasion.

Skin: Slight irration.

Ingestion: None known.

Carcinogenicity: N/A

Medical Conditions Aggravated by Long-Term Exposure: Accumulation of dust in the respiratory system may cause congestion.

## 4 First Aid Measures

Inhalation: Remove to fresh air, Treat any irration sympomatically. Call a phisican if condition persists. If unconscious, place in the recovery position and seek medical advice.

Skin contact: Wash well with soap and running water.

Eye contact: In case of contact immediately flush with plenty of low pressure water for at least 15 minutes. Remove any contact lenses to ensure Thorough flushing.

Note to Physicans/Special Precaution/procedures: N/A

## 5 Fire Fighting Measures

Extinguishing media: Water spray, dry chemical, foam, carbon dioxide, or halon type extinguishers..

Fire Fighting Instructions: Do not release runoff from fire control methods to sewers or waterways.

Hazardous combustion products: Carbon monoxide, carbon dioxide and smoke.

## 6 Accidental Release Measures

Spill/Leak Procedures: Scoop into container for disposal, suction up remaining material with high effency vacuum cleaner.

## 7 Handling and Storage

Handling: Keep the container tightly closed. Exclude sources of heat and open flame. Avoid skin and eye contact .Smoking, eating and drinking should be prohibited in areas of storage and use.

Storage: Store between 5 and 35 Celsius in a dry, well ventilated place away from sources of Heat, ignition and direct sunlight, in the original packing carton.

Date of Issue: 04.04.2001

Last changed 28/06/01

## 8 Exposure Controls/Personal Protection

Engineering Controls: None required.

Exposure Controls: None required.

Personal Protection: None required when cartridges are used as intended.

Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking using the toilet , or applying cosmetics.

## 9 Physical and Chemical Properties

Physical state: Black, free flowing powder

Odor: none

PH: N/A

Flesh point: N/A

Boiling point: N/A

Autoflammability: N/A

Explosiv properties: N/A

Vapor density: Heavier then air

Relativ density: N/A

## 10 Stability and Reactivity

Stability: Stable.

Hazardous polymerization: N/A

Hazardous decomposition products: None.

Incompatible materials: N/A

## 11 Toxological Information

Routes of Overexposures: Eye, skin, inhalation and oral.

Chronical health hazards: None known.

Carcinogenicity: None known.

Toxological Data: N/A

Amestest: Negativ

## 12 Ecological Information

No data available on the adverse effects of this material on the environment.

## 13 Disposal Considerations

Waste material may be incinerated/or recycled for its Iron Oxide under conditions which meet all federal, state and local environmental regulations.

## 14 Transport Information

The product is not classified as dangerous for transport purposes.

## 15 Regulatory Information

The product is determined as not being dangerous.

## 16 Other Information

The information contained in this safety data sheet is based on the present state of knowledge and current national legislation.It provides Guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications.
